DAILY NEWS.

SATURDAY, JUNE 23, 1877.

A Meeting of Our Business Men.

The business men of Goldsboro met in the court house Tuesday night for the purpose of expressing their condemnation of the prospective increase in the tariff on through freights to and from Goldsboro, the result of an alliance recently entered into between the chairman of the Atlantic Coast Air Line Company, by which the Atlantic Road is to receive a stipulated "royalty" on all freights that will necessarily be forced over the Coast Line by reason of said combination.

The meeting was well attended and all present seemed to be fully impressed with the propriety of such action. Upon Goldsboro and the farmers of this entire section.

On motion Mr. W. F. Kornegay was made chairman of the meeting, and J. A. Bonitz, Secretary. The chairman explained the object of the meeting in most appropriate remarks, stating the grievances, and calling for concert of action on the part of the business men of Goldsboro.

On motion John H. Powell, Herman Weil and Alex. H. Keaton were appointed a committee to draft resolutions expressive of the sense of the meeting.

Capt. John F. Divine, Superintendent of the W. & A. R. R., being present, was, on motion, invited to a seat in the meeting, and, being called upon, stated that he thought all the alarm was premature, that as yet no tariff had been fixed, that the Atlantic Road was evidently in a bankrupt condition and necessarily compelled to arrange terms by which a sale and sacrifice of the road could be prevented. He suggested that another meeting be held and that Mr. Hughes and Hon. R. R. Bridges be invited to attend and explain the arrangement, called combination.

Pending a discussion the committee returned and submitted the following resolutions: WHEREAS, The merchants and business men of Goldsboro have learned with much regret, that a combination has recently been made between the managers of the Atlantic Coast Line, and the receiver of the Atlantic & N. C. Railroad Company, by which a material advance in freights is to be made, which said action we consider as injurious and detrimental to the prosperity and welfare of Goldsboro, as also to the interests of the surrounding counties who trade with us.

Resolved, That such combination (if perfected) must result in driving off all steamship connections with Merchants and Newbern; break up our State Railroad projects, and force all freights passing over the North Carolina Road, they may see in to arrange.

Resolved, That we deprecate said action, and call upon the Governor to aid us by his authority and influence, in keeping the Atlantic & N. C. Railroad out of such entangling combinations which will result in injury to the material advancement and prosperity of the growing town as well as the surrounding country.

Resolved, That Goldsboro being the terminal point of two Railroads, and connection with a third, is so situated that she should be guarded with a through tariff, on just terms, which can only be had by a fair legitimate competition, and that any action on the part of the managers of said Roads to destroy said competition, and combine with the business interests of the shippers is entitled to our most emphatic condemnation, and as merchants of Goldsboro we will patronize and support any Road who gives them a tariff such as their local position entitles them to, and who enters into no combinations against their material interests.

Resolved, That the course of the Manager in the premises meets our most hearty approval, and we call upon other State papers to take a stand against Railroad monopolies and combinations, which must result in injury to the State as well as our own community.

J. H. POWELL, Secy.
HERMAN WEIL, Com.
A. H. KEATON, Com.
On motion of Mr. Lehman the report was received and the committee discharged.

Mr. T. B. Hyman moved that further considerations of the resolutions be postponed to some future occasion, but afterwards he withdrew this motion. The report and resolutions were then adopted by unanimous assent.

By Telegraph.

NOON DISPATCHES.

THE TROUBLE IN THE EAST.

NEWS UNIMPORTANT.

LONDON, June 22.—An Alexandria special says that the British government has ordered English officers in the Khedive's service to resign.

A military council in Vienna resolved to strengthen the force in Dalmatia by five thousand men.

The military correspondent at Bucharest telegraphs that all military attachés, except the English have gone to the front. Officers of the headquarters staff say that an English military attaché was so received by the Grand Duke as to render his remaining with the Russian army very uncertain.

The barges used for transporting corn on the Danube are made in floating block houses, and for transferring infantry they are bullet-proof.

WASHINGTON.

Gorman Waives an Examination and Gave Ball-Subscriptions to the Five Per Cents.

Gen. Gorman, arrested for libelling Hester, waived an examination and was held for the grand jury in one thousand dollars.

Reports made to the treasury show, up to the close of business yesterday, the amount of 4 per cent. bonds subscribed for by the people of the United States under the 30 days limitation is \$800,000 of which \$700,000 was subscribed at New York. It is estimated that the aggregate popular subscriptions will not exceed two million of dollars.

The civil service regulations will probably be ready in a week. The President's idea is to forbid federal officers from taking active part in political manifestations, being members of political conventions or serving as members of political committees. The President, Schurz, Evans and Devens leave Monday for Boston.

Assistant surgeon Geo. H. Torney, is relieved from duty in the department of the Gulf. Callender J. Lewis is appointed assistant paymaster in the Navy.

The payment of the July interest commences the 28th inst., without debate. The Treasury will sell one million of gold in New York Thursday the 28th. The President has appointed Fred Kueper pension agent at Indianapolis Vice General Buck Terrell. Terrell was Major's Adjutant General during the war and is regarded as one of his special pets.

The President appointed J. C. Shaw, post master, Tarboro, N. C.; Arthur C. Newell, Farmington, N. C.; M. K. Ayers, Salisbury, N. C.; K. P. Casey, Gonzales, Texas, also John D. Thomas, collector of customs at Baltimore and Wm. Cochran naval officer. They also decided that the Pension Agency for Illinois be located at Chicago, and Miss Ada Sweet be retained as agent; also decided to retain the present agents at the various consolidated agencies, except in the case of General Terrell, whose commission is about to expire.

Mills to be Built.

FALL RIVER, MASS., June 22.—The stockholders of Wampagoag Mills have decided to build a dam and mill on the mill No. 2, by a vote of 5 to 1, and also voted to increase the capital stock \$100,000. Union Mills' stockholders also held a meeting yesterday and voted to build mill No. 3.

"The Bottom Rail on Top."

SAN FRANCISCO, June 22.—Advices from Walla Walla state that the Indians killed every man on Salmon river, but spared women and children. The Indians have got the best of the soldiers up to this time. They have killed about 30 and driven them back from White Bird to Mount Idaho. The killed and wounded up to this time is about fifty troops. It will take five hundred soldiers to whip Joseph's band.

The St. John's Calamity.

BANGOR, ME., June 21.—The following dispatch was received from the Carleton side of the river dated 4 o'clock this afternoon: "The fire is now under control. Every house South of King street is burned. Fifteen thousand people are homeless. No household effects of any account were saved. About 500 acres were burned. Over thirty bodies have been recovered and as many more are missing."

Sales of Railroad Stocks.

BALTIMORE, June 22.—Baltimore and Ohio shares sold this morning at 94 1/2, 95, and at the close 95 was bid and 100 asked. Pittsburgh and Connellsville and Marietta was also higher, the former selling at 100/100, the latter at 100 for first, 4 1/2 for seconds, and 15/15 1/2 for thirds.

FOREIGN.

Affairs in France.—Ecclesiastical Promotion.—Russia Authorizes a Loan.

PARIS, June 22.—The Evening states that the Republican Senators have decided to vote for the Chamber by abstention.

NIGHT DISPATCHES.

WASHINGTON.

Judge White not so Mad as Represented—Report of the Wheat Crop Prospects—Appointments—Mexican Border Matters—Civil Service Regulations—Federal Officers and Politics, &c., &c.

WASHINGTON, June 22.—Chief Justice Waite said tonight that during his stay in the city of Charleston he was not conscious of any incivility on the part of the citizens of that place. He feels greatly mortified at the statements which have appeared in the newspapers in regard to their demeanor toward him while attending to his judicial duties in that circuit. His first knowledge of any such action, as their part came to him through the press.

The June report of the department of agriculture indicates a better prospect than usual for wheat; the report of June, 1876, made the average for the country thirteen centum below the standard of normal condition and subsequent returns of condition and yield were still lower. Forecasting the scarcity which has occurred, the average for wheat in full normal condition; four hundred and ninety-four above one hundred, and one hundred and eighty-three below it. Of the spring wheat counties, 92 report one hundred; one hundred and seventy above, one hundred and thirty-seven below.

The State averages are as follows: Maine 101, New Hampshire, 102, Vermont 102, Massachusetts 100, Rhode Island 100, Connecticut 103, New York 108, New Jersey 100, Pennsylvania 98, Delaware 97, Maryland 103, Virginia 109, North Carolina 100, South Carolina 97, Georgia 108, Florida 100, Alabama 96, Mississippi 107, Louisiana 103, Texas 100, Arkansas 100, Tennessee 97, West Virginia 107, Kentucky 108, Ohio 115, Michigan 109, Indiana 112 Illinois 105, Wisconsin 97, Minnesota 95, Iowa 102, Missouri 110, Kansas 109, Nebraska 103, Louisiana 103, Oregon 109.

Return from California indicate half of a full crop. From the deficiency of the winter rain-fall fewer injuries from insects and rust are reported than usual. In the Ohio valley nearly every return is favorable. In Pennsylvania and Tennessee the slight depression is caused by the Hessian fly.

The President has recognized W. L. Trenholm as Vice Consul of Russia, at Charleston, S. C., and D. K. Kickey at Pensacola.

Patterson has been commissioned as attorney for the Southern district of Florida.

The following dispatch was read at the Centennial Exhibition to-day: "Gen. P. T. B. Clark, Texas, June 19th, respectfully forwarded: 'Gen. Trevino, commanding here, of the Bravo, and two of his staff, came over with me from Dun. I gave him a horse, and he went back yesterday. There is a good understanding between us on the basis of my instructions regarding prompt action to suppress the marauding, and the co-operation of our troops on both sides of the river is necessary to make the pursuit. I think he is satisfied that nothing but good can possibly result.'"

[Signed] P. H. SHERIDAN, Lieut. General.

Power of Police Officers to Arrest and Imprison Offenders.

[Statesville Landmark.] The decision of Judge Schenck in the case of the State ex. James H. McLaughlin, settles the vexed question that has so long agitated our municipal circles—the power of a police officer to arrest and imprison for a violation of a law ordinance without due process of law. The defendant was indicted in two cases: one for false imprisonment, one for assault and battery. In the first case Mr. Hussey, defendant's counsel, conceded that the act of the Legislature of 1868-9, conferring upon a public officer the power to imprison offenders without a mittimus, was unconstitutional. On the indictment for assault and battery his Honor decided that there was excessive violence. The facts in the case are: defendant notified Woods, the prosecutor, that his team was hitched across a sidewalk in violation of a town ordinance. Woods refused to remove the team. In resisting the enforcement of the ordinance he was knocked down by the defendant with his "billy." By consent the question of fact was submitted to his Honor said in announcing the decision, the facts in the case are: defendant in suppressing riots, preserving the public peace—where the offenders were in *flagrante delicto*. In this case the defendant was indicted for obtaining a warrant, arrest the defendant and bring him before the Mayor. In response to Mr. Hussey's interrogatory, "What was the remedy for removing the obstruction from the sidewalk?" his Honor said that the town had its remedy by indicting the offender:

1. That a person cannot be imprisoned without a mittimus under "due process of law." Sec. 17, Declaration of Rights.

2. That a person cannot be arrested without warrant, unless it be necessary to preserve the public peace, he being in *flagrante delicto*—engaged in the riot or breach of the peace.

Milton Chronicle: We regret to learn that Mr. Thos. O. Connolly, of this vicinity had a tobacco barn consumed by fire last Saturday night by which he lost his last two crops of tobacco. The fire was accidental.

A Medicine of Many Uses.

A medicine which remedies dyspepsia, liver complaint, constipation, debility, intermittent and remittent fevers, urinary and uterine troubles, depletes the blood, counteracts a tendency to rheumatism and gout, and relieves nervousness, may be truly said to have many uses. Such an article is Hostetter's Bitters, one of the most reliable alteratives of a disorderly to a well ordered state of the system ever prepared or sold. It has been over a quarter of a century before the public, is endorsed by many eminent physicians, the healing art, and its merits have received repeated recognition in the columns of leading American and foreign journals. It is highly esteemed in every part of this country, and is extensively used in South America, Africa, the British possessions and the West Indies. If its increase in public favor in the past is any reliable criterion of its gain of popularity in coming years, it has indeed a *record* before it.

The huge, drastic, griping, sickening pills, are fast being superseded by Dr. Pierce's "Purgative Pellets" from Pierce's Memorandum Books given away by all druggists.

GOURAUD'S OLYMPIAN CREAM.

This standard preparation has from the time of its general introduction received the unqualified commendation of the beauty and fashion of the land. Its intrinsic excellence and peculiar adaptation to the toilet has secured it an instant preference over every article with which it has competed, a preference due to no extravagant laudation of its merits. No lady has ever given it a trial without becoming its lasting patron, or has failed to confirm every virtue the proprietors claim in its behalf. To the sailor, tattered, decayed and pimply complexion, it renders a delicate and charming very counterpoise of nature, and unlike other preparations, conveys no suggestion of artificial appliances. Reduced in price to one dollar, this really excellent article will command a wider and more extended patronage than that hitherto accorded it; but that none may forego a trial of a preparation that needs but to be used to be recommended, it is moreover temporarily offered in trial bottles at 25 cents. Warranted to contain no lead, arsenic, mercury or chalk.

DAILY NEWS.

SATURDAY, JUNE 23, 1877.

THE WEEKLY NEWS is the best weekly paper published in North Carolina. It is only one cent per copy, postage paid, contains columns of plain printed news from every section of the country, and important advertisements. Always Cash.

The Editor of the News is not responsible for the views and opinions expressed by correspondents.
Correspondents are requested to be as brief as possible in the subject upon which they write will admit.
The names of correspondents are required in every instance for the private information of the editor, as a guarantee of good faith.
Anonymous communications will invariably be assigned to the waste basket, without notice.
Correspondents are requested to write only on one side of the sheet; otherwise great inconvenience is caused to the printer.

NORTH CAROLINA VIEWS.

Ye That Have Tears to Shed, Prepare to Shed Them Now.
[Milton Chronicle.]

Parties and politicians are playing out, and the country begins to breathe easier. What's to become of all the old political fossils and cancerous scabs? And the little big men puffed into greatness by the press?

Rascality.
[Salem Press.]

The papers continue to publish statements of rascality among the officials in North Carolina, embracing overcharges and false charges, fraudulent entries, &c. It is to be hoped that all these charges will be fully and fairly investigated.

"General" Dockery.
[Pee Dee Herald.]

Let us caution our telegraphic friends about calling Oliver "General." He gained that title as a Brigadier, by Holton's appointment, in the Kirk war in North Carolina, and is sensitive on the subject. Don't force him into an "explanation."

A Bourbon Barbed Shaft.

Our able and esteemed contemporaries, the Wilmington Star and Raleigh News, are both congratulating themselves upon their championship of the policy of endorsing Hayes, in North Carolina. Each claims the honor of taking the initiative in the matter. We think that either could yield the point without any detriment in any respect.

Of Course.

[Dunlap Record.]
While we approve and support every constitutional act of Hayes, and while we rejoice at the restoration of self-government to our down-trodden sister Southern States, and congratulate the country that there has been a great improvement upon the Grant regime; yet we cannot and will not forget that monstrous and outrageous villainy, crime and usurpation which was perpetrated against the country and liberty, with the full knowledge and consent of Mr. Hayes, and which constitutes the grand climax of those of which he and his party have been guilty for the last fifteen years; nor shall others forget so far as we are able to keep them reminded. They ought not to be forgotten.

Appointment of Powers.

[Newbern Nut Shell.]
We will say, therefore, in support of the remarks made by us, that Mr. Powers received letters of recommendation from many of our leading Democrats, in which he was endorsed in preference to any other Republican, for the position of Collector, and that nearly all of our business men signed a petition for his retention in preference to the appointment of another Republican. As to whether Mr. Powers, who is a white man, could wield more influence over the Republicans in this district, the great majority of whom are colored persons, than can Hyman, a colored man, we leave the public to judge.

A Bourbon Blast.

[Greensboro Patriot.]
What would you do then? says the endorser. We would simply do this. Let Mr. Hayes, as he holds power now in spite of us, administer the government until we have an opportunity at the ballot box to put in power the man of our choice. If he does right and respects the laws he is sworn to support, we will administer all the better; but there is no occasion to become hysterical, and stultify ourselves simply because he is fit to respect the oath he took. We will expect him to do the right and ask no more from him. He is *John's* to grant us. All we ask down, and for that we need not get on right at knees to him, because it is it. He is *John's* have a right to demand. We bow to what cannot help and accept with proper respect the good that may come to us, *John's* to endorse and making hypocritical assent out of the man who a few months ago we denounced as the fraud without a peer.

GENERAL NOTES.

The Democratic editors of Mississippi held a meeting a few days ago, and passed a resolution in favor of opposing any attempt to form a new party in the State.
President Hayes intends to spend a portion of the month of July and August at the Greenbrier White Sulphur Springs, in Virginia, with his family, and he has engaged a cottage there.
The Arkansas Supreme Court has decided that the act under which about \$16,000,000 bonds were issued in 1869 in aid of railroads was unconstitutional, and that the bonds were illegal.
Norristown Herald: General Grant was presented with the freedom of the city of London last week. He is now at liberty to engage in business in that city, and put out a sign bearing this inscription: "Tanner to her Majesty the Queen."
The Newport (R. I.) Mercury understands that it has been decided to have no liquor of any kind at the Governor's headquarters in Providence during the army reunions, and that there will be no liquor at any of the dinners given to President Hayes while in the State.
Unusual interest is being taken in the volunteer military organizations springing up all over South Carolina. The Hampton Regiment, of Charleston, have a fatigue or summer uniform consisting of black trousers, linen jackets with palm-leaf buttons, and green trimmings, black felt hat with green cord and tassel and green feather.

Gouraud's Olympan Cream

commends itself to young and old alike as the most natural, effective and harmless emollient and preservative of youth. Price reduced to one dollar. F. H. Heartt, Agent, Raleigh, N. C.

POWER and HAND PRESSES.

THE HOPE ENGINE

the CHEAPEST, SIMPLEST, STRONGEST, MOST DURABLE and ECONOMICAL Engine of its kind made. Any boy can learn to run one with perfect safety in a few hours. Parties thinking of buying Engines for Cotton Gins or Presses, Corn or Saw Mills, would find it to their advantage to try us before purchasing elsewhere. Over 50 in use in this State alone.

THE CAROLINA GIN

ron Frame, is noted for its superior lightness of draft, cleanness and quickness of picking and length of lint, surpassing all other gins in these particulars, while its price is much less.

Carolina Cotton and Hand Presses

Have been still further improved by this season, making them at once the cheapest, strongest and most easily-run press ever offered to the planters of this State.

We also manufacture and keep on hand all kinds of Saw Mills, Mill and Mining Machinery, Shafting, Pulleys, Hangers, Boxes, Tanks, Rollers, &c. Estimates furnished for work. Repairing and jobbing done promptly at manufacturers' prices, and by skilled workmen. Full price lists and particulars of all the above sent on application.

R. F. JONES & CO.,

AGENTS FOR

RHODES' STANDARD MANURES!

RALEIGH, N. C. February 3rd, 1877.

We are now prepared with a full supply of J. M. RHODES & CO'S well known and just celebrated SUPER PHOSPHATES, packed in strong new bags, of 200 pounds each.

We sold large quantities of the above Phosphates the last two seasons, and they gave entire satisfaction to all who used them, and not only as the grower of cotton, but as a permanent improver of the soil. These Standard Phosphates contain a high percentage of the most valuable fertilizing ingredients. We refer to the following parties who used the above Phosphates last season:

R. J. Ivey, near Raleigh. W. G. Riddick, near Raleigh. J. Rowan Rogers, near Raleigh. Dickinson & Purefoy, Wake Forest. R. T. Strickland, Wake Forest. S. E. Green, near Clayton. A. J. Richardson, Eagle Rock. C. D. Jones, Reidsville. Hillard Jones, Reidsville. W. J. Jewell, near Raleigh. T. R. Howell, near Raleigh, and many others.

Q. T. STROGAN & Co.—Dissolution. JAMES M. TOWLES—Auctioneer, &c. Dr. G. K. BAGBY—Atlantic Hotel. G. W. WYNN & Co.—The Horse for sale.

LOCAL BRIEFS.

—Business still dull and flat. —Please hand in church notices to-day. —None of the magistrates had even a civil case yesterday.

—Three referee courts were in session yesterday in this city. —Time is most out. Better list your poll, county and State taxes.

—The revenue collection in this district yesterday amounted to \$1,056.05. —Bad smells are complained of in some parts of the city, arising from uncleanly back lots.

—It is said that the work of improving and ornamenting Oakwood Cemetery will soon begin. —For lack of postage a letter addressed to Wiley Flemming, Raleigh, N. C., is held in the postoffice here.

—Yesterday Governor Vance appointed N. Pendleton Schenck, of New York, a Commissioner of Deeds for this State.

—Yesterday a number of gentlemen enjoyed a picnic at the old powder mill. Crabtree creek, three miles north of this city.

—It is rumored that a "chicken dispute" will shortly come off near this city. Particulars were not ascertainable.

—Among the list of graduates at Princeton College are three North Carolinians—Frank W. Hughes, Thomas H. McKoy, Jr., and W. C. Armstrong.

—It is said that six crickets will take the road to South this summer, and it is presumed that of this crowd Raleigh will catch a scent of the sawdust.

—A negro man coming into the city, yesterday morning, reported seeing what he believed to be a mad dog in the vicinity of Pigeon-house branch. It is his tongue out and was frothing at the mouth.

—The only case at the mayor's court yesterday was that of Annie Wilson, colored, for disorderly conduct. She was proven guilty, but owing to her peculiar condition judgment was suspended.

—Yesterday a telegram was received at the executive office announcing that the Governor's son, young Zebulon, had passed a satisfactory examination, and would soon go on a cruise in the Mediterranean.

—An analysis by the chemist of the Royal Agricultural Society showed that there was sewage pollution present in large quantity, and that much fatal disease in the vicinity had its origin here.

Well, Raleigh, not a London, but many towns of even less population have been scourged into sanitary intelligence and reform by the pressure of fearful epidemics. In a small town in this State half a dozen cases of typhoid, most of them fatal, were traced directly to a polluted well. An examination of half a dozen of the older city wells, with a few more modern ones, for comparison, was made in the Laboratory of the Survey last year, in connection with some general investigations of the waters of the rivers, lakes, wells and springs of the State. The result, so far as Raleigh is concerned, is given below; for a few other cities will be given later, with the general result as to rivers and lakes, &c. It is customary to state the total solids which are found in water, in the form of so many grains per gallon; that is, one part in 10,000. This is obtained by taking, for example, a gallon, or a fractional part thereof of water, and evaporating to dryness, and weighing the residue:

1. Well in Capitol square. 6.451 0.884 0.887 2. "at Pender's Drug St. 5.776 0.691 0.753 3. "near Market House, 12.855 0.518 12.167 4. "at St. John's Church, 10.438 0.438 10.438 5. "at Old Hog place, 40.233 16.071 21.262 6. "at St. John's Church, 10.438 0.438 10.438 7. "at Dr. E. B. Haywood's, 41.135 10.713 30.422 8. "at Old Hog place, 40.233 16.071 21.262 9. "at St. John's Church, 10.438 0.438 10.438 10. "at St. John's Church, 10.438 0.438 10.438 11. "at St. John's Church, 10.438 0.438 10.438 12. "at St. John's Church, 10.438 0.438 10.438 13. "at St. John's Church, 10.438 0.438 10.438 14. "at St. John's Church, 10.438 0.438 10.438 15. "at St. John's Church, 10.438 0.438 10.438 16. "at St. John's Church, 10.438 0.438 10.438 17. "at St. John's Church, 10.438 0.438 10.438 18. "at St. John's Church, 10.438 0.438 10.438 19. "at St. John's Church, 10.438 0.438 10.438 20. "at St. John's Church, 10.438 0.438 10.438

There are several points to be considered in interpreting an analysis. First place no spring or well water is absolutely pure. The very best have two to four or five grains of mineral matter in solution. But there is a limit and a rather narrow one, beyond which these mineral matters become more or less from their amount, harmful. This limit of potability in this direction is twenty to thirty grains—at most forty. Then the kind of mineral matter present is important. A water containing more than sixteen grains is called hard; it will not wash. Again, it is of importance to know what minerals constitute the hardness of water. Five or six grains of carbonate of lime are not objectionable, and even twice that amount may be innocuous to most; but much less than that quantity of sulphate of lime, or of salts of magnesium is injurious, and even a half grain of iron is more objectionable. Chlorine and chloride of sodium (common salt) may be present to the amount of several grains without injury, but the presence of chlorine in water is always ground of suspicion, and suggests contamination, although it does not necessarily imply it. As to organic matter, although a few grains are not necessarily harmful, yet its presence is suggestive of the presence of the most fatal forms of contamination from sewage, or some form of decaying and poisonous animal or vegetable matters. And if any, even the smallest quantity, of this be in the form of ammoniacal ammonia, or of free ammonia be present, such waters are to be condemned as utterly unfit for human use.

None of the latter was found in any of these analyses, but a trace of th

Decision by the State Treasurer.

The State Treasurer yesterday gave the following answer to numerous enquiries concerning the tax on seals of various public officers, &c.: To Clerks of Courts and other Public Officers:

Enquiries from various sources having been made of me as to the intent and meaning of sec. 4, schedule C, of the Revenue act, the following, embodying an answer to direct points presented, is published.

I am of opinion that the language "or other public officer" in the section referred to, includes all officers whose duty it is to keep a seal. The tax should be collected on seals attached to certificates of proof of all mortgages and deeds, or any instrument of writing requiring a seal not a process of court.

It will be seen by reference to the seal that the documents and instruments of writing exempt from the tax on seals (those used for a county, State or other government; commissions of officers of militia, justices of the peace, or any public officer not having a salary; process of court; documents required under the pension law) are not subject to the tax.

All other opinions given in answer to specific questions on this subject are hereby modified so as to conform to the foregoing. The Attorney General concurs in this opinion.

Very respectfully,
JOHN M. WORTH,
State Treasurer.

What We Drink.

Is a question of mere serious import than most people suppose. It has been found in the deepest sources of wells and springs, and then comes disease, more or less virulent and fatal, then sanitary investigations, discovery of infected wells, to be closed up by public authority, and when water supply from a distant and purer source, as in all our large cities. Let it not be supposed that the smell or the taste will detect the obscure, impalpable germs of infection; it is only within a decade or two that the most refined chemistry in the leading city of the world, stimulated by parliamentary authority and resources, has found means of ascertaining, by the most delicate tests, whether a given sample of water is pure and sparkling quality, that they were sent for to a distance of many squares in preference to that supplied by the various water-works of the city.

An analysis by the chemist of the Royal Agricultural Society showed that there was sewage pollution present in large quantity, and that much fatal disease in the vicinity had its origin here.

Well, Raleigh, not a London, but many towns of even less population have been scourged into sanitary intelligence and reform by the pressure of fearful epidemics. In a small town in this State half a dozen cases of typhoid, most of them fatal, were traced directly to a polluted well. An examination of half a dozen of the older city wells, with a few more modern ones, for comparison, was made in the Laboratory of the Survey last year, in connection with some general investigations of the waters of the rivers, lakes, wells and springs of the State. The result, so far as Raleigh is concerned, is given below; for a few other cities will be given later, with the general result as to rivers and lakes, &c. It is customary to state the total solids which are found in water, in the form of so many grains per gallon; that is, one part in 10,000. This is obtained by taking, for example, a gallon, or a fractional part thereof of water, and evaporating to dryness, and weighing the residue:

Business Notices.

Trunks, valises and satchels at reduced prices at the established shoe house of Heller Bros.

The greatest comfort in these hot Summer nights is Levy's Gent's Night-gown.

A Card.

Some unprincipled persons having reported that we have removed from the city, and that nobody could remain in Raleigh and sell, as we do, we hereby announce that it is utterly false; that we are in the city and intend to remain here and sell as cheap as ever and still cheaper, if possible.

You can now find at Heller Bros. gaiters, at 30 cents; ladies lace gaiters, at 15 cents; slippers, at 50 cents; and the prettiest variety of infants', children's, misses' and boys' shoes and slippers, of all colors and styles, the finest quality of goods.

Prime Alberts and low buckle shoes, manufactured in this country. Also broad-bottom gaiters and low shoes for old gentlemen and ladies. You can find the best quality of French kid button brogue lace shoes, sandals, Newport, low buckle and buckle shoes. Also another lot of those foxed gaiters, at \$1.25; gents' low box-toed ties, at \$2; Virginia penitentiary sewed brogues are the best summer shoes for wearing. All to be found at the permanently located book and shoe store of Heller Bros., No. 31 Fayetteville street, Raleigh, N. C.

The Fowler fly fan for sale at J. C. Brewster's is all the go; no family should be without one.

The trade supplied at the lowest prices. No humbug! Every fan is warranted. The I. X. L. fly trap, the best in the market for sale, wholesale and retail.

A full set of wire dish covers for only \$1.00, complete stock of fruit jars and preserving kettles.

Hardware, stoves and house furnishing goods. All kinds of brass, copper, sheet iron, zinc and tin work done cheap. Also roofing done in any style at the State at the lowest prices. Guns, locks, and sewing machines repaired. Bell hanging in all its branches.

Take off your undershirt saturated with perspiration, and sleep in Levy's cooling Gent's Night-gown.

Ask Yourself These Questions.

Are you a despondent sufferer from Sick Headache, Habitual Costiveness, Palpitation of the Heart? Have you a "Dizziness of the Head"? Is your Nervous System depressed? Does your Blood circulate badly? Have you a Cough? Low Spirits? Coming up of the food after eating? &c., &c. All of these are the result of the direct results of Dyspepsia, Liver Complaint and Indigestion. GREEN'S AUGUST FLOWER is now acknowledged by all Druggists to be a positive cure. 2,400,000 bottles were given away in the United States through the kind offices of the proprietors. Two doses will satisfy any person of its wonderful quality in curing all forms of Indigestion. Sample bottles 10 cts. Regular size 75 cts. Sent by mail for all first-class Druggists in the United States.

Lumsden's store is overflowing with goods of the most seasonable kind, such as glass and tin fruit jars, cream freezers, flower pots, fly traps, stone and wood churns, bath tubs, crockery, chamber sets, covered and uncovered baskets, preserve kettles, all warranted and guaranteed. Also if you want any kind of repairing done in tin, copper, brass or any kind of metals, bring it to Lumsden's.

Believing a specialty.

If you want to sleep comfortable and pleasant wear Levy's Gent's Night-gowns.

Shirts for all and lower than ever, at Levy's.

Help for the weak, nervous, and debilitated. Chloride of Potassium, cured without medicine. Electric Belts and other appliances, all about them, and how to distinguish the genuine from the spurious, with full particulars, mailed free. Address: F. J. Lumsden, 222 Broadway, New York City.

NEW ADVERTISEMENTS.

Advertise in a paper of universal circulation. A paper which reaches the people in all things; a paper acceptable alike to the rich and the poor, and such a paper the NEWS is conceded to be by all men whose opinion is worth having.

Supreme Court.

Court met at 9 o'clock yesterday, all the Justices present.

Call of appeals from the seventh district resumed.

John W. Kirkman vs. Bank of Greensboro, from Guilford. The argument in this case began on Thursday and was concluded yesterday (Friday). Scott & Caldwell for plaintiff and Scales & Scales for defendants.

Joseph Haskins vs. Pinkney Wall et al., from Guilford. Argued. John A. Gilmer for plaintiff and J. T. Morehead for defendant.

State vs. Jesse F. Haskins et al., from Guilford, was taken up, but pending the argument the court adjourned until tomorrow. This case is here on appeal from Judge Cox, and involves a conflict of jurisdiction between the State and United States Court. The State is represented by Attorney General Keenan, D. G. Fowle, Jno. Gatliff, W. H. Bailey, J. T. Morehead and the defendant by Ball & Gregory and J. M. McCormick.

VEGETINE

Purifies the Blood, Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alterative, Tonic, Solvent and Diuretic.

Vegetine is made exclusively from the juices of carefully selected herbs, roots and barks, and is so strongly concentrated that it will effectually eradicate from the system every trace of scrofulous, syphilitic, humors, Tumor, Cancer, cancerous tumors, Erysipelas, the Syphilitic disease, Calver's disease, the skin disease, and all the diseases that arise from impure blood, Scrofula, Inflammation and Chronic Rheumatism, Neuralgia, and Spinal Complaints, can only be effectually cured by a blood purifier. For Erysipelas, Pimples, eruptions, Boils, Tetter, and all skin diseases, Vegetine has never failed to effect a permanent cure.

For pains in the back, Aching limbs, Dropsy, Chronic Weakness, Rheumatism, arising from internal ulceration, and aetive nervous system, it gives tone and energy directly upon the causes of these complaints. It invigorates and strengthens the whole system, and upon the secret organs, organs, invigorates, cures aetion and regulates the bowels.

For Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Nervousness, and General Prostration of the Nervous System, no medicine has ever given such satisfaction as the Vegetine. It purifies the blood, cleanses the organs, and possesses a controlling power over the whole system.

The remarkable cures effected by Vegetine have induced many physicians and apothecaries to use it, and to prescribe and use it in their own families.

In fact, Vegetine is the best remedy yet discovered for the above diseases, and is the only reliable BLOOD PURIFIER yet placed before the public.

What is Vegetine?

It is a compound extracted from barks, roots and herbs. It is Nature's remedy. It is perfectly harmless from any kind of poison upon the system. It is nourishing and strengthening. It acts directly upon the blood. It quickens the nervous system, gives you good sleep at night. It is a great panacea for our troubles, and cures all diseases. It gives strength, quiets the nerves and gives them Nature's sweet sleep—as has been proved by many an aged person, to preserve and use it in their own families.

It is a fact, Vegetine is the best remedy yet discovered for the above diseases, and is the only reliable BLOOD PURIFIER yet placed before the public.

VALUABLE INFORMATION.

BOSTON, MASS. Mr. H. R. STEVENS—Dear Sir,—My only object in giving you this testimonial is to spread valuable information. Having been badly afflicted with salt rheum, and all the while suffering from it, I took many of the advertised blood purifiers, among which was a quantity of Sarsaparilla, without obtaining any benefit until I commenced taking the Vegetine, and before I had completed the first bottle, I had had the right medicine. Consequently I followed on with it until I had taken seven bottles, when I was pronounced cured, and my skin is smooth and entirely free from pimples and eruptions. I can now enjoy my good health before, and I attribute it all to the Vegetine. To benefit those afflicted with rheumatism, I
